The complete genome sequence of Listeria monocytogenes N2306, a strain associated with the 2013-2014 listeriosis outbreak in Switzerland

Tasara, Taurai; Ebner, Rebecca; Klumpp, Jochen; Stephan, Roger

Abstract: We present the complete genome sequence of Listeria monocytogenes N2306, a serotype 4b clinical strain isolated during the 2013-2014 nationwide listeriosis outbreak in Switzerland
