# Contents

Summary.....	5
Zusammenfassung.....	7
<b>1. General introduction .....</b>	<b>9</b>
1.1. Prevalence of supplement use.....	9
1.1.1. Prevalence of supplement use in able-bodied athletes.....	9
1.1.2. Prevalence of supplement use in wheelchair athletes .....	10
1.2. Physiological consequences of a spinal cord injury.....	11
1.3. Classification of supplements: The ABCD system.....	13
1.3.1. Category A.....	13
1.3.2. Category B.....	14
1.3.3. Category C.....	14
1.3.4. Category D.....	14
1.4. Supplements investigated in this thesis.....	15
1.4.1. Caffeine.....	15
1.4.2. Sodium citrate .....	16
1.4.3. Vitamin D .....	18
1.4.4. Nitrate / Beetroot juice .....	18
1.5. Outline of the thesis .....	19
1.6. References.....	22
<b>2. Influence of caffeine and sodium citrate ingestion on 1500 m exercise performance in elite wheelchair athletes: a pilot study .....</b>	<b>28</b>
2.1. Abstract.....	29
2.2. Introduction .....	30
2.3. Methods .....	32
2.3.1. Participants .....	32
2.3.2. Study design .....	32
2.3.3. Dosage.....	33
2.3.4. Blood measurements.....	33
2.3.5. Gastrointestinal sensations.....	34
2.3.6. Statistics.....	34
2.4. Results .....	35
2.5. Discussion.....	36
2.5.1. Conclusions .....	41
2.6. References.....	42
<b>3. Reliability of a 3min all-out arm crank ergometer exercise test.....</b>	<b>44</b>
3.1. Abstract.....	45
3.2. Introduction .....	46
3.3. Methods .....	47
3.3.1. Participants .....	47
3.3.2. Experimental design .....	47
3.3.3. 3 min all-out exercise test .....	47
3.3.4. Statistics.....	48
3.4. Results .....	49
3.5. Discussion.....	49
3.5.1. Mean power and total work.....	51
3.5.2. Peak power.....	52
3.5.3. Fatigue index .....	53
3.5.4. Other parameters.....	53
3.5.5. Conclusion .....	53
3.6. References.....	54
<b>4. Ergogenic effects of caffeine consumption in a 3 min all-out arm crank test in paraplegic and tetraplegic compared to able-bodied individuals.....</b>	<b>56</b>
4.1. Abstract.....	57
4.2. Introduction .....	58

4.3.	Methods .....	60
4.3.1.	Participants .....	60
4.3.2.	Study design .....	60
4.3.3.	Exercise protocol .....	61
4.3.4.	Dosage.....	62
4.3.5.	Blood measurements.....	62
4.3.6.	Statistics.....	62
4.4.	Results .....	64
4.4.1.	Exercise performance .....	64
4.4.2.	Blood parameters .....	64
4.5.	Discussion.....	68
4.5.1.	Exercise performance.....	68
4.5.2.	Blood parameters .....	69
4.5.3.	Conclusions .....	70
4.6.	References.....	71
<b>5.</b>	<b>Acute effects of caffeine on heart rate variability, blood pressure and tidal volume in paraplegic and tetraplegic compared to able-bodied individuals .....</b>	<b>73</b>
5.1.	Abstract.....	74
5.2.	Introduction .....	75
5.3.	Methods .....	76
5.3.1.	Participants .....	76
5.3.2.	Experimental design .....	77
5.3.3.	Heart rate variability.....	77
5.3.4.	Blood pressure and tidal volume .....	78
5.3.5.	Blood sampling and analysis.....	78
5.3.6.	Caffeine and placebo administration .....	78
5.3.7.	Statistics.....	79
5.4.	Results .....	80
5.5.	Discussion.....	82
5.5.1.	Heart rate variability.....	82
5.5.2.	Blood pressure and tidal volume .....	84
5.5.3.	Blood parameters .....	84
5.5.4.	Limitations.....	85
5.5.5.	Conclusion .....	85
5.6.	References.....	87
<b>6.</b>	<b>Vitamin D deficiency in Swiss elite wheelchair athletes .....</b>	<b>90</b>
6.1.	Abstract.....	91
6.2.	Introduction .....	92
6.3.	Materials and Methods.....	93
6.3.1.	Blood sampling and analysis.....	93
6.3.2.	Statistical Analysis .....	93
6.4.	Results .....	95
6.5.	Discussion.....	96
6.5.1.	Conclusion.....	99
6.6.	References.....	100
<b>7.</b>	<b>Is beetroot juice more effective than sodium nitrate? - The effects of equimolar nitrate dosages of nitrate-rich beetroot juice and sodium nitrate on oxygen consumption during exercise.....</b>	<b>102</b>
7.1.	Abstract.....	103
7.2.	Introduction .....	104
7.3.	Materials and Methods.....	105
7.3.1.	Study design .....	105
7.3.2.	Supplement preparation .....	106
7.3.3.	Exercise testing.....	106
7.3.4.	Blood collection and analysis.....	107
7.3.5.	Gastrointestinal sensations.....	107
7.3.6.	Statistical analysis .....	107
7.4.	Results .....	109

7.4.1. Respiratory parameters .....	109
7.4.2. Blood parameters .....	110
7.5. Discussion.....	112
7.5.1. Oxygen consumption.....	112
7.5.2. Blood parameters .....	113
7.5.3. Blood pressure.....	114
7.5.4. Conclusions .....	116
7.6. References.....	117
<b>8. Supplementation and performance in spinal cord injured elite athletes: a systematic review .</b>	<b>120</b>
8.1. Zusammenfassung.....	121
8.2. Summary.....	122
8.3. Introduction .....	123
8.4. Methods .....	124
8.5. Results .....	125
8.6. Discussion.....	127
8.6.1. Conclusion .....	128
8.7. References.....	129
<b>9. General discussion .....</b>	<b>130</b>
9.1. Influence of caffeine and sodium citrate on performance in spinal cord injured participants	130
9.2. Vitamin D status in Swiss elite wheelchair athletes .....	133
9.3. Influence of dietary nitrate on oxygen consumption in trained men .....	134
9.4. Clinical implications and recommendations .....	135
9.5. Limitations and research perspectives.....	136
9.5.1. Limitations.....	136
9.5.2. Future perspective .....	137
9.6. Conclusions.....	138
9.7. References.....	140
