Effect of Ensure® overfeeding on the anorectic effect of amylin

Inaugural-Dissertation

zur Erlangung der Doktorwürde der
Vetsuisse-Fakultät Universität Zürich

vorgelegt von

Manuela Munz

Tierärztin
von Sulgen (TG)

genehmigt auf Antrag von

Prof. Dr. Thomas A. Lutz, Referent

Prof. Dr. Kurt Bürki, Korreferent

Zürich 2009

Zentralstelle der Studentenschaft

Contents

1 SUMMARY	1
2 INTRODUCTION	2
2.1 OBESITY EPIDEMIC	2
2.2 ENERGY HOMEOSTASIS	3
2.3 CENTRAL CONTROL	4
2.4 PERIPHERAL CONTROL	6
2.4.1. Satiating signals	6
2.4.2 Adiposity signals	6
2.5 AMYLIN	7
2.5.1 Structure, secretion, function	7
2.5.2 Amylin's effect on food intake (role as satiating signal)	8
2.5.3 Amylin's effect on body weight (role as adiposity signal)	9
2.6 HYPOTHESIS AND AIM OF THE STUDY	9
3 MATERIAL AND METHODS	12
3.1 ANIMALS	12
3.2 EXPERIMENTAL DIETS	12
3.3 STEREOTAXIC SURGICAL PROCEDURE	13
3.4 VERIFICATION OF CANNULA PLACEMENT	13
3.5 PREPARATION OF MINIPUMP AND IMPLANTATION	14
3.6 PREPARATION OF AMYLIN SOLUTION	14
3.7 STATISTICAL ANALYSIS	14
3.8 EXPERIMENTAL DESIGN	14
3.8.1 Question one: Does long-term access to Ensure® alter amylin's efficacy to reduce eating and body weight?	15
3.8.2 Question two: Does short-term access to Ensure® alter amylin's efficacy to reduce eating?	16
3.8.3 Question three: Is the inefficacy of amylin to reduce eating specific to Ensure® cacao access?	18
4 RESULTS	19
4.1. LONG-TERM ACCESS TO ENSURE®	19
4.2 SHORT-TERM ACCESS TO ENSURE®	26
4.3 DIET COMPOSITION	30

5 DISCUSSION	32
5.1 AMYLIN'S EFFICACY TO REDUCE EATING AND BODY WEIGHT REMAINS UNALTERED AFTER THREE WEEKS ENSURE® CACAO OVERFEEDING	32
5.2 AMYLIN FAILS TO REDUCE EATING AFTER THREE DAYS OF ENSURE® CACAO ACCESS	34
5.3 THE INABILITY OF AMYLIN TO REDUCE EATING IS SPECIFIC FOR RATS WITH PREVIOUS ACCESS TO ENSURE® CACAO	35
5.3.1 Diet composition/Fat content	36
5.3.2 Flavour (chocolate and neutral).....	37
5.4 CONCLUDING SUMMARY.....	37
5.4.1 Primary instinct to consume energy-dense foods	38
5.4.2 Increased energy density promotes increased energy intake.....	39
5.4.3 Involvement of central reward systems.....	40
6 REFERENCES.....	44
7 ACKNOWLEDGMENTS.....	49
8 CURRICULUM VITAE	50
